MONTHLY RELEASE

FEDERAL CIVILIAN WORKFORCE STATISTICS

**********NOTICE**********

The Monthly Release is now available through the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

****

The Monthly Release presents employment information on the Federal civilian workforce based on reports submitted by each department and agency. Current employment data by branch, agency, and location; 13-month trends of employment, payroll, and turnover; and accession and separation rates are summarized in detailed statistical tables. Monthly employment data are occasionally supplemented by reports from other periodic surveys on the occupational, geographic, and wage and salary characteristics of Federal civilian employees. Please refer to the Table of Contents for the particular data that may be included in this report. The Data Source and Definition section provides details on the method of data collection and definitions of the classifications used in this publication.

This report was prepared under the direction of John E. Curnow, Chief Workforce Analysis and Statistics Division. The manager for this report was Denise Rosette of the Surveys and Information Branch, Ronnie H. Ayers Chief. Additional information may be obtained from the Workforce Analysis and Statistics Division, Office of Personnel Management, 1900 E Street, N.W. Washington, D.C. 20415; Phone 202-632-5416.

Dr. Philip A. D. Schneider
Assistant Director for Workforce Information
Compliance and Investigations Group

DATA SOURCE AND DEFINITIONS

Statistics in this report were collected by the Office of Personnel Management and are based on the Monthly Report of Federal Civilian Employment (Standard Form 113A), which is submitted by all departments and agencies of the Federal Government except the Central Intelligence Agency and the National Security Agency. OPM does not collect personnel data from the District of Columbia Government. Within this report, employment data are reported under the following categories:

WORK SCHEDULES

Full-time employees - those employees who are regularly scheduled to work the number of hours and days required by the administrative work-week for their employment group or class. (Most full-time employees have an administrative work-week of 5 days of 8 hours each.)

Part-time employees - those employees who are regularly employed on a pre-scheduled tour of duty which is less than the specified hours or days of work for full-time employees in the same group or class.

Intermittent employees - those employees who are employed on an irregular or occasional basis, with hours or days of work not on a prearranged schedule, and with compensation only for the time actually employed or for services actually rendered. As of January 1979, an intermittent employee who separated prior to the as-of date of the report is not counted.

POSITIONS

Permanent position - one which has been established without time limit, or for a period of a year or more, or which, in any event, has been occupied for a year or more (regardless of the intent when it was established).

Temporary position - one which has been established for a limited period of less than a year and which has not been occupied for more than a year.

RELATED TO CEILING - includes all employees covered by the President's employment ceiling as of the report date. Disadvantaged youths under the Stay-In-School Campaign (Schedule A, excepted authority 213.3102(w)), the Summer Aid Program (Schedule A, excepted authority 213.3102(v)), and the Federal Junior Fellowship Program (Schedule B, excepted authority 213.3202(f)), and employees in developmental jobs in the Worker Trainee Opportunity Program are excluded from personnel ceilings.

FULL-TIME EQUIVALENT EMPLOYMENT

Beginning in Fiscal Year 1982 the full-time equivalent (FTE) resource management system replaced the Executive Branch numerical end-of-year personnel ceilings which had been used to control the size of the Federal workforce for many years. Under the FTE system, workforce estimates assigned to agencies are based on the number of work years required to achieve agency missions and objectives. (One work year is equivalent to 2,080 hours of work which could mean, for example, one employee on a full-time schedule of 40 hours for 52 weeks, or two part-time employees for 20 hours per week each for the same period.) The work year estimate assigned is based on the maximum cumulative number of hours that can be worked by all employees covered by ceiling controls, including full-time, part-time and intermittent employees. Each hour worked in the agency during the course of the year (with the exception of overtime and certain other exempt work) is accrued under this ceiling. An agency's full-time equivalency for the current period is the sum of the straight time hours worked during the two biweekly report periods by ceiling-related employees divided by 160 -- this is the number of hours available to a full-time employee during the four-week reporting period.

COMPETITIVE SERVICE

The competitive service consists of all civil service positions in the Executive Branch except: (a) positions that are specifically excepted from the competitive service by or under statute; (b) positions to which appointments are made by nomination for confirmation by the Senate, unless the Senate otherwise directs, and (c) positions in the Senior Executive Service. The competitive service also includes civil service positions outside the Executive Branch that are specifically included in the competitive service by statute.

EXCEPTED SERVICE AND SENIOR EXECUTIVE SERVICE

Title IV of the Civil Service Reform Act of 1978 created the Senior Executive Service (SES). Personnel in the Executive Branch in managerial positions classifiable above GS-15 of the General Schedule and not designated above level IV of the Executive Schedule, or their equivalents, are in the SES. Exceptions include positions in government corporations, intelligence agencies, the FBI, and administrative law judges. The Foreign Service Act of 1980 created a Senior Foreign Service, effective February 15, 1981, which parallels the Senior Executive Service in most respects. Federal employees who are not in the competitive service or SES are in the excepted service. Examples of excepted positions include Vietnam Era Veterans serving under Veterans Readjustment Appointments, positions for which it is not practicable to hold competitive examinations, such as teachers in dependents' schools overseas and attorneys, positions of a policy-determining and confidential nature, and most positions in the Legislative and Judicial Branches. Foreign nationals holding jobs overseas are excepted by Executive Order.

Several tables in this publication report the number of Federal civilian employees in the competitive service and in the excepted service. Senior Executive Service employment is included in the excepted service in this Monthly Release since both excepted service and SES data are reported together on the 113A monthly report.

The following table lists those agencies and bureaus with significant numbers of employees in the excepted service.

Agency	Principal Component/Occupation with Excepted Service Employees	Approx. % of Agency Employees in Excepted Service
General Accounting Office	-----	100%
Library of Congress	-----	100%
State	Foreign Service Officers	83%
Treasury	Comptroller of the Currency-Bank Examiners	8%
Army	Army National Guard/Foreign Nationals Overseas	20%
Navy	Foreign Nationals Overseas	12%
Air Force	Air National Guard/Foreign Nationals Overseas	17%
Other Defense	Office of Dependents' Schools	40%
Justice	Federal Bureau of Investigation	45%
Interior	Bureau of Indian Affairs	23%
Agriculture	Forest Tech. & Workers/County Comm. Members in FHA	13%
Commerce	Bureau of the Census-Enumerators	19%
Health and Human Services	U.S. Public Health Service - Commissioned Corps	13%
Transportation	FAA-Attorneys, Student Aides, Undergrad. Coop. Prog.	4%
Board of Governors of the Fed. Res.	-----	100%
Environmental Protection Agency	Attorneys and Physical Scientists	16%
General Services Administration	National Archives-Trust Fund Employees	7%
Internat. Communication Agency	Career Officers	74%
Nuclear Regulatory Commission	-----	100%
Panama Canal Commission	-----	100%
Soldiers' and Airmen's Home	-----	100%
Tennessee Valley Authority	-----	100%
U.S. Internat. Dev. Coop. Agency	Career Officers	70%
U.S. Postal Service	-----	100%
Veterans Administration	Dept. of Medicine & Surgery	31%

APPOINTMENTS

Permanent Appointments - include 1) employees in the competitive service who hold career appointments and who either have completed probation or are not required to serve probation; 2) employees in the competitive service who hold career-conditional appointments, or who hold career appointments and are serving probation; 3) employees in the excepted service whose appointments carry no restrictions such as conditional, indefinite, specific time limitations, or trial periods; 4) employees in the excepted service who are serving trial periods or whose tenure is equivalent to career-conditional tenure in the competitive service; 5) employees in the Senior Executive Service (SES) who are not serving under "limited term and limited emergency" appointments.

Temporary and Indefinite Appointments - include all other employees who do not fall within any of the classifications described under Permanent Appointments.

ACCESSIONS AND SEPARATIONS

Accessions include appointments from civil service registers which are career or career-conditional appointments, excepted appointments, appointments to the Senior Executive Service, temporary appointments from registers, temporary appointments pending the establishment of registers, reappointments, reinstatements, restorations and returns to duty, and tranfers. Separations include quits, discharges, terminations, reductions in force, removals, transfers, extended leave without pay, suspensions, furloughs, deaths, retirements, and displacements. Turnover data are reported in this publication for the following categories.

Transfers - employees who, without a break in service of one full work day, change from a position in one agency to a position in another agency, including mass transfers of employees between agencies as a result of transfer of functions.

New Hires - new appointments of individuals who currently are not Federal civilian employees to positions in the competitive service, excepted service, and Senior Executive Service, including reinstatements based on prior service.

Restorations, Returns to Duty - includes employees who exercise reemployment rights following military sevice and those returning to duty following a reduction in force, from suspension or leave without pay that was scheduled to exceed 30 calendar days, from seasonal furlough, or pending action on reopening appeal.

Quits - voluntary resignations by employees or separations by agency if employee declines new assignment (decision not to accept a new job); abandons position (left the job); joins military; or fails to return from military furlough.

As of January 1979 agencies were permitted to report data either as of (1) the last calendar day of the month, or (2) the end of the pay period closest to the end of the month, except at the end of the fiscal year when it must be as of the last calendar day of the month to meet assigned Office of Management and Budget (OMB) personnel ceilings.

SECTION 1

FEDERAL CIVILIAN WORKFORCE STATISTICS

This section contains recent data dated "as of" the date printed on the publication cover. Selected tables also contain data for the previous month. Until further notice, the Monthly Release is being published on a bi-monthly (as opposed to monthly) basis; however, data for the non-published months and for non-published tables will be furnished upon request. Requestors should identify those tables needed by table number and send such requests in writing to: Workforce Analysis and Statistics Division, (Room 5431), Office of Personnel Management, 1900 E Street, N.W., Washington, D. C. 20415.

The personnel summaries in Tables 1 and 17 present highlights on an overview of the information in Tables 2-16 and 18-31. Table 2 compares the current and previous month's Federal civilian employment by branch, agency and area. Tables 3-6 and 16 include 13-month trends for employment, payrolls, Executive Branch employment by work schedule, and turnover.

It should be noted that the net difference in turnovers (accessions and separations) will not necessarily balance with net monthly changes in employment due to lags in the reporting of transfers and variations in agency reporting periods. A separation personnel action is generally not prepared for an employee who transfers to another agency until an accession notice is received by the losing agency.

Where figures are expressed in thousands, each is rounded independently and not forced to add to rounded totals. All figures are subject to revision. Several tables present employment data for the Washington, D. C. Metropolitan Statistical Area (MSA). The Washington, D. C. MSA includes the District of Columbia; Arlington, Fairfax, Loudoun, Prince William, and Stafford Counties; the Cities of Alexandria, Fairfax, Falls Church, Manassas, and Manassas Park in Virginia; and Calvert, Charles, Frederick, Montgomery, and Prince Georges Counties in Maryland.

Special Note to Readers Regarding Executive Branch Employment Controls

Note that unless otherwise indicated, the employment data contained herein represents on board "head count" strength reporting, and includes the U.S. Postal Service, the civilian employees in the Department of Defense, and other employees exempt from Administration ceiling controls in the Youth Programs and Worker Trainee Opportunities Program. In some issues of the Monthly Release, a contrasting measure of employment, i.e., full-time equivalent (FTE) work years is used to reflect non-postal, non-defense ceiling employment. (See the FULL-TIME EQUIVALENT EMPLOYMENT description on page 5.) Therefore, caution should be exercised when determining change in employment, e.g., "head count" vs. "FTE" and "Total" vs. "related-to-ceiling" employment. The reader should also be aware that the President has no control over employment levels in the Legislative and Judicial branches. The postal and defense workforces are controlled solely through the Congressional appropriations process.

Monthly Release

Employment and Trends as of March 1986

Special Feature (See Section II)
- Full-Time Federal Civilian White and Blue Collar Employment

United States Office of Personnel Management
Workforce Analysis and Statistics Division

Until further notice, the Monthly Release will be printed on a bi-monthly basis. (See SECTION I for more details.)

PM 1.15:

MONTHLY RELEASE

FEDERAL CIVILIAN WORKFORCE STATISTICS

**********NOTICE**********

The Monthly Release is now available through the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

****

JUN 18 1986

U. S. GOVT. PUBS.
DEPOSITORY 376

The Monthly Release presents employment information on the Federal civilian workforce based on reports submitted by each department and agency. Current employment data by branch, agency, and location; 13-month trends of employment, payroll, and turnover; and accession and separation rates are summarized in detailed statistical tables. Monthly employment data are occasionally supplemented by reports from other periodic surveys on the occupational, geographic, and wage and salary characteristics of Federal civilian employees. Please refer to the Table of Contents for the particular data that may be included in this report. The Data Source and Definition section provides details on the method of data collection and definitions of the classifications used in this publication.

This report was prepared under the direction of John E. Curnow, Chief Workforce Analysis and Statistics Division. The manager for this report was Denise Rosette of the Surveys and Information Branch, Ronnie H. Ayers Chief. Additional information may be obtained from the Workforce Analysis and Statistics Division, Office of Personnel Management, 1900 E Street, N.W. Washington, D.C. 20415; Phone 202-632-5416.

Dr. Philip A. D. Schneider
Assistant Director for Workforce Information
Compliance and Investigations Group

SECTION II SPECIAL FEATURE TABLES AND NARRATIVE 68

FULL-TIME FEDERAL CIVILIAN WHITE AND BLUE COLLAR EMPLOYMENT, OCTORER 31, 1985 69

*Data available upon request (See SECTION I).

DATA SOURCE AND DEFINITIONS

tatistics in this report were collected by the Office of Personnel Management and are based on the Monthly Report f Federal Civilian Employment (Standard Form 113A), which is submitted by all departments and agencies of the Federal overnment except the Central Intelligence Agency and the National Security Agency. OPM does not collect personnel data rom the District of Columbia Government. Within this report, employment data are reported under the following ategories:

WORK SCHEDULES

Full-time employees - those employees who are regularly scheduled to work the number of hours and days required by the administrative work-week for their employment group or class. (Most full-time employees have an administrative work-week of 5 days of 8 hours each.)

Part-time employees - those employees who are regularly employed on a pre-scheduled tour of duty which is less than the specified hours or days of work for full-time employees in the same group or class.

Intermittent employees - those employees who are employed on an irregular or occasional basis, with hours or days of work not on a prearranged schedule, and with compensation only for the time actually employed or for services actually rendered. As of January 1979, an intermittent employee who separated prior to the as-of date of the report is not counted.

POSITIONS

Permanent position - one which has been established without time limit, or for a period of a year or more, or which, in any event, has been occupied for a year or more (regardless of the intent when it was established).

Temporary position - one which has been established for a limited period of less than a year and which has not been occupied for more than a year.

RELATED TO CEILING - includes all employees covered by the President's employment ceiling as of the report date. Disadvantaged youths under the Stay-In-School Campaign (Schedule A, excepted authority 213.3102(w)), the Summer Aid Program (Schedule A, excepted authority 213.3102(v)), and the Federal Junior Fellowship Program (Schedule B, excepted authority 213.3202(f)), and employees in developmental jobs in the Worker Trainee Opportunity Program are excluded from personnel ceilings.

FULL-TIME EQUIVALENT EMPLOYMENT

Beginning in Fiscal Year 1982 the full-time equivalent (FTE) resource management system replaced the Executive Branch numerical end-of-year personnel ceilings which had been used to control the size of the Federal workforce for many years. Under the FTE system, workforce estimates assigned to agencies are based on the number of work years required to achieve agency missions and objectives. (One work year is equivalent to 2,080 hours of work which could mean, for example, one employee on a full-time schedule of 40 hours for 52 weeks, or two part-time employees for 20 hours per week each for the same period.) The work year estimate assigned is based on the maximum cumulative number of hours that can be worked by all employees covered by ceiling controls, including full-time, part-time and intermittent employees. Each hour worked in the agency during the course of the year (with the exception of overtime and certain other exempt work) is accrued under this ceiling. An agency's full-time equivalency for the current period is the sum of the straight time hours worked during the two biweekly report periods by ceiling-related employees divided by 160 -- this is the number of hours available to a full-time employee during the four-week reporting period.

COMPETITIVE SERVICE

The competitive service consists of all civil service positions in the Executive Branch except: (a) positions that are specifically excepted from the competitive service by or under statute; (b) positions to which appointments are made by nomination for confirmation by the Senate, unless the Senate otherwise directs, and (c) positions in the Senior Executive Service. The competitive service also includes civil service positions outside the Executive Branch that are specifically included in the competitive service by statute.

EXCEPTED SERVICE AND SENIOR EXECUTIVE SERVICE

Title IV of the Civil Service Reform Act of 1978 created the Senior Executive Service (SES). Personnel in the Executive Branch in managerial positions classifiable above GS-15 of the General Schedule and not designated above level IV of the Executive Schedule, or their equivalents, are in the SES. Exceptions include positions in government corporations, intelligence agencies, the FBI, and administrative law judges. The Foreign Service Act of 1980 created a Senior Foreign Service, effective February 15, 1981, which parallels the Senior Executive Service in most respects. Federal employees who are not in the competitive service or SES are in the excepted service. Examples of excepted positions include Vietnam Era Veterans serving under Veterans Readjustment Appointments, positions for which it is not practicable to hold competitive examinations, such as teachers in dependents' schools overseas and attorneys, positions of a policy-determining and confidential nature, and most positions in the Legislative and Judicial Branches. Foreign nationals holding jobs overseas are excepted by Executive Order.

Several tables in this publication report the number of Federal civilian employees in the competitive service and in the excepted service. Senior Executive Service employment is included in the excepted service in this Monthly Release since both excepted service and SES data are reported together on the 113A monthly report.

The following table lists those agencies and bureaus with significant numbers of employees in the excepted service.

Agency	Principal Component/Occupation with Excepted Service Employees	Approx. % of Agency Employees in Excepted Service
General Accounting Office	-----	100%
Library of Congress	-----	100%
State	Foreign Service Officers	83%
Treasury	Comptroller of the Currency-Bank Examiners	8%
Army	Army National Guard/Foreign Nationals Overseas	20%
Navy	Foreign Nationals Overseas	12%
Air Force	Air National Guard/Foreign Nationals Overseas	17%
Other Defense	Office of Dependents' Schools	40%
Justice	Federal Bureau of Investigation	45%
Interior	Bureau of Indian Affairs	23%
Agriculture	Forest Tech. & Workers/County Comm. Members in FHA	13%
Commerce	Bureau of the Census-Enumerators	19%
Health and Human Services	U.S. Public Health Service - Commissioned Corps	13%
Transportation	FAA-Attorneys, Student Aides, Undergrad. Coop. Prog.	4%
Board of Governors of the Fed. Res.	-----	100%
Environmental Protection Agency	Attorneys and P ysical Scientists	16%
General Services Administration	National Archives-Trust Fund Employees	7%
Internat. Communication Agency	Career Officers	74%
Nuclear Regulatory Commission	-----	100%
Panama Canal Commission	-----	100%
Soldiers' and Airmen's Home	-----	100%
Tennessee Valley Authority	-----	100%
U.S. Internat. Dev. Coop. Agency	Career Officers	70%
U.S. Postal Service	-----	100%
Veterans Administration	Dept. of Medicine & Surgery	31%

APPOINTMENTS

Permanent Appointments - include 1) employees in the competitive service who hold career appointments and who either have completed probation or are not required to serve probation; 2) employees in the competitive service who hold career-conditional appointments, or who hold career appointments and are serving probation; 3) employees in the excepted service whose appointments carry no restrictions such as conditional, indefinite, specific time limitations, or trial periods; 4) employees in the excepted service who are serving trial periods or whose tenure is equivalent to career-conditional tenure in the competitive service; 5) employees in the Senior Executive Service (SES) who are not serving under "limited term and limited emergency" appointments.

Temporary and Indefinite Appointments - include all other employees who do not fall within any of the classifications described under Permanent Appointments.

ACCESSIONS AND SEPARATIONS

Accessions include appointments from civil service registers which are career or career-conditional appointments, excepted appointments, appointments to the Senior Executive Service, temporary appointments from registers, temporary appointments pending the establishment of registers, reappointments, reinstatements, restorations and returns to duty, and tranfers. Separations include quits, discharges, terminations, reductions in force, removals, transfers, extended leave without pay, suspensions, furloughs, deaths, retirements, and displacements. Turnover data are reported in this publication for the following categories.

Transfers - employees who, without a break in service of one full work day, change from a position in one agency to a position in another agency, including mass transfers of employees between agencies as a result of transfer of functions.

New Hires - new appointments of individuals who currently are not Federal civilian employees to positions in the competitive service, excepted service, and Senior Executive Service, including reinstatements based on prior service.

Restorations, Returns to Duty - includes employees who exercise reemployment rights following military sevice and those returning to duty following a reduction in force, from suspension or leave without pay that was scheduled to exceed 30 calendar days, from seasonal furlough, or pending action on reopening appeal.

Quits - voluntary resignations by employees or separations by agency if employee declines new assignment (decision not to accept a new job); abandons position (left the job); joins military; or fails to return from military furlough.

As of January 1979 agencies were permitted to report data either as of (1) the last calendar day of the month, or (2) the end of the pay period closest to the end of the month, except at the end of the fiscal year when it must be as of the last calendar day of the month to meet assigned Office of Management and Budget (OMB) personnel ceilings.

SECTION 1

FEDERAL CIVILIAN WORKFORCE STATISTICS

This section contains recent data dated "as of" the date printed on the publication cover. Selected tables also contain data for the previous month. Until further notice, the Monthly Release is being published on a bi-monthly (as opposed to monthly) basis; however, data for the non-published months and for non-published tables will be furnished upon request. Requestors should identify those tables needed by table number and send such requests in writing to: Workforce Analysis and Statistics Division, (Room 5431), Office of Personnel Management, 1900 E Street, N.W., Washington, D. C. 20415.

The personnel summaries in Tables 1 and 17 present highlights on an overview of the information in Tables 2-16 and 18-31. Table 2 compares the current and previous month's Federal civilian employment by branch, agency and area. Tables 3-6 and 16 include 13-month trends for employment, payrolls, Executive Branch employment by work schedule, and turnover.

It should be noted that the net difference in turnovers (accessions and separations) will not necessarily balance with net monthly changes in employment due to lags in the reporting of transfers and variations in agency reporting periods. A separation personnel action is generally not prepared for an employee who transfers to another agency until an accession notice is received by the losing agency.

Where figures are expressed in thousands, each is rounded independently and not forced to add to rounded totals. All figures are subject to revision. Several tables present employment data for the Washington, D. C. Metropolitan Statistical Area (MSA). The Washington, D. C. MSA includes the District of Columbia; Arlington, Fairfax, Loudoun, Prince William, and Stafford Counties; the Cities of Alexandria, Fairfax, Falls Church, Manassas, and Manassas Park in Virginia; and Calvert, Charles, Frederick, Montgomery, and Prince Georges Counties in Maryland.

Special Note to Readers Regarding Executive Branch Employment Controls

Note that unless otherwise indicated, the employment data contained herein represents on board "head count" strength reporting, and includes the U.S. Postal Service, the civilian employees in the Department of Defense, and other employees exempt from Administration ceiling controls in the Youth Programs and Worker Trainee Opportunities Program. In some issues of the Monthly Release, a contrasting measure of employment, i.e., full-time equivalent (FTE) work years is used to reflect non-postal, non-defense ceiling employment. (See the FULL-TIME EQUIVALENT EMPLOYMENT description on page 5.) Therefore, caution should be exercised when determining change in employment, e.g., "head count" vs. "FTE" and "total" vs. "related-to-ceiling" employment. The reader should also be aware that the President has no control over employment levels in the Legislative and Judicial branches. The postal and defense workforces are controlled solely through the Congressional appropriations process.

SECTION II

SPECIAL FEATURE TABLES AND NARRATIVE

FULL-TIME FEDERAL CIVILIAN EMPLOYMENT

This section contains information on Full-Time Federal Civilian employment in White and Blue Collar Occupations as of October 31, 1985.

Full-Time Federal Civilian Employment in White- and Blue-Collar Occupations as of October 31, 1985

by Christine E. Steele

Employment Totals

There were 2,025,532 full-time non-postal Federal civilian employees covered by the most recent occupational survey as of October 31, 1985 (the survey's data sources are described below). Most workers (1,602,438 or 79%) were in professional, scientific, administrative and support-type jobs commonly referred to as white-collar occupations; the remaining workers (423,094 or 21%) were in blue-collar occupations. Women comprised 47% of white-collar employment and 9% of blue-collar employment.

Major Geographic Areas

Federal white-collar employees work around the world, but 96% (1,542,701) worked in the United States; 16% (260,702) worked in the Washington, D.C. Metropolitan Statistical Area (MSA); and 59,737 worked in foreign countries and U.S. territories. Federal blue-collar workers were also primarily employed in the United States (412,636 or 98%) with only 25,919 (6%) workers in the Washington, D.C. area; and 10,458 working overseas.

Average Annual Salaries

Average annual salary data are based on basic rates of pay and exclude overtime, premium pay for night work or unusual hours, and post differentials or cost-of-living allowances paid to employees serving outside the 48 contiguous states. The average annual salary of all white-collar employees as of October 31, 1985 was $26,959. Average annual salaries are generally higher in the Washington, D.C. MSA than elsewhere since most agencies have their headquarters and senior managers in the Nations's Capital; the overall average white-collar salary in the Washington, D.C. area was $33,193. The worldwide average salary for the blue-collar workforce as of October 31, 1985 was $23,623.

Major Agencies

The Defense Department employed forty-three percent of all Federal civilian white-collar workers: Army (269,484), Navy (195,425), Air Force (151,120), Defense Logistics Agency (41,140), and other Defense agencies (34,488). The four other major employers of white-collar workers were the Veterans Administration (171,434), Treasury (123,287), Health and Human Services (115,872), and Agriculture (98,282). Three of every four blue-collar workers were employed by the Defense Department: Army (99,708), Navy (126,827), Air Force (89,302), Defense Logistics Agency (8,258), and other Defense agencies (1,341). Other major blue-collar employers were the Veterans Administration (34,364), Tennessee Valley Authority (13,539), Interior (9,635), and General Services Administration (8 926).

White-Collar Occupations

White-collar workers are classified into more than 400 different occupations which are organized into 22 groups. For example, the Legal and Kindred Group includes the occupation General Attorney. The following Table A distributes the full-time Federal civilian employment in white-collar occupations as of October 31, 1985 by group, occupation, geographic division, and gender. Each occupation is also identified as to which occupational category it belongs: Professional, Administrative, Technical, Clerical, Other (asterisk indicates a multiple category). More than a quarter (450,267) or 28%) of the white-collar workers work in the General Administrative, Clerical and Office Services Group. The other large white-collar groups were: Engineering and Architecture (166,976 or 10%); Medical, Hospital, Dental, and Public Health (141,698 or 9%); and Accounting and Budget (132,747 or 8%).

Blue-Collar Occupations

The various kinds of work performed by blue-collar employees have been defined in more than 400 different occupations which are organized into 37 job family groups. The following Table B distributes the full-time Federal civilian employment in blue-collar occupations as of October 31, 1985 by group, occupation, geographic division, and gender. Nearly half (194,765 or 46%) of the blue-collar employees worked in seven occupational groups: Warehousing and Stock Handling (40,940), General Services and Support Work (32,529), Transportation/Mobile Equipment Operation (26,016), Electronic Equipment Installation and Maintenance (25,262), Transportation/Mobile Equipment Maintenance (23,516), Metal Work (23,307), and Electrical Installation and Maintenance (23,195).

Data Source

The primary source for these data was the Central Personnel Data File (CPDF), augmented by special reports from some agencies for use in the occupational survey. No data were collected from members and employees of Congress, Congressional Budget Office, or from most of the Judicial Branch with the exception of the Administrative Office of the U.S. Courts. The Central Intelligence Agency and National Security Agency are exempt from reporting by law. The U.S. Postal Service, Postal Rate Commission, Board of Governors of the Federal Reserve System, and foreign nationals employed overseas were also excluded from the survey.

Formerly titled the Monthly Release.
Now a Bi-Monthly Publication.

PM 1.15:

EMPLOYMENT AND TRENDS

FEDERAL CIVILIAN WORKFORCE STATISTICS

**********NOTICE**********

The Employment and Trends is now available through the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

****

The Employment and Trends (formerly called the Monthly Release) presents employment information on the Federal civilian workforce based on reports submitted by each department and agency. Current employment data by branch, agency, and location; 13-month trends of employment, payroll, and turnover; and accession and separation rates are summarized in detailed statistical tables. Monthly employment data are occasionally supplemented by reports from other periodic surveys on the occupational, geographic, and wage and salary characteristics of Federal civilian employees. Please refer to the Table of Contents for the particular data that may be included in this report. The Data Source and Definition section provides details on the method of data collection and definitions of the classifications used in this publication.

This report was prepared under the direction of John E. Curnow, Chief Workforce Analysis and Statistics Division. The manager for this report was Denise Rosette of the Surveys and Information Branch, Ronnie H. Byers Chief. Additional information may be obtained from the Workforce Analysis and Statistics Division, Office of Personnel Management, 1900 E Street, N.W. Washington, D.C. 20415; Phone 202-632-5416.

Dr. Philip A. D. Schneider
Assistant Director for Workforce Information
Personnel Systems and Oversight Group

SECTION II SPECIAL FEATURE TABLES AND NARRATIVE 68

PROFILE OF THE "TYPICAL" FEDERAL CIVILIAN NON-POSTAL EMPLOYEE 69

*Data available upon request (See SECTION I).

DATA SOURCE AND DEFINITIONS

Statistics in this report were collected by the Office of Personnel Management and are based on the Monthly Report of Federal Civilian Employment (Standard Form 113A), which is submitted by all departments and agencies of the Federal Government except the Central Intelligence Agency, the National Security Agency and the Defense Intelligence Agency. OPM does not collect personnel data from the District of Columbia Government. Within this report, employment data are reported under the following categories:

WORK SCHEDULES

Full-time employees - those employees who are regularly scheduled to work the number of hours and days required by the administrative work-week for their employment group or class. (Most full-time employees have an administrative work-week of 5 days of 8 hours each.)

Part-time employees - those employees who are regularly employed on a pre-scheduled tour of duty which is less than the specified hours or days of work for full-time employees in the same group or class.

Intermittent employees - those employees who are employed on an irregular or occasional basis, with hours or days of work not on a prearranged schedule, and with compensation only for the time actually employed or for services actually rendered. As of January 1979, an intermittent employee who separated prior to the as-of date of the report is not counted.

POSITIONS

Permanent position - one which has been established without time limit, or for a period of a year or more, or which, in any event, has been occupied for a year or more (regardless of the intent when it was established).

Temporary position - one which has been established for a limited period of less than a year and which has not been occupied for more than a year.

RELATED TO CEILING - includes all employees covered by the President's employment ceiling as of the report date. Disadvantaged youths under the Stay-In-School Campaign (Schedule A, excepted authority 213.3102(w)), the Summer Aid Program (Schedule A, excepted authority 213.3102(v)), and the Federal Junior Fellowship Program (Schedule B, excepted authority 213.3202(f)), and employees in developmental jobs in the Worker Trainee Opportunity Program are excluded from personnel ceilings.

FULL-TIME EQUIVALENT EMPLOYMENT

Beginning in Fiscal Year 1982 the full-time equivalent (FTE) resource management system replaced the Executive Branch numerical end-of-year personnel ceilings which had been used to control the size of the Federal workforce for many years. Under the FTE system, workforce estimates assigned to agencies are based on the number of work years required to achieve agency missions and objectives. (One work year is equivalent to 2,080 hours of work which could mean, for example, one employee on a full-time schedule of 40 hours for 52 weeks, or two part-time employees for 20 hours per week each for the same period.) The work year estimate assigned is based on the maximum cumulative number of hours that can be worked by all employees covered by ceiling controls, including full-time, part-time and intermittent employees. Each hour worked in the agency during the course of the year (with the exception of overtime and certain other exempt work) is accrued under this ceiling. An agency's full-time equivalency for the current period is the sum of the straight time hours worked during the two biweekly report periods by ceiling-related employees divided by 160 -- this is the number of hours available to a full-time employee during the four-week reporting period.

COMPETITIVE SERVICE

The competitive service consists of all civil service positions in the Executive Branch except: (a) positions that are specifically excepted from the competitive service by or under statute; (b) positions to which appointments are made by nomination for confirmation by the Senate, unless the Senate otherwise directs, and (c) positions in the Senior Executive Service. The competitive service also includes civil service positions outside the Executive Branch that are specifically included in the competitive service by statute.

EXCEPTED SERVICE AND SENIOR EXECUTIVE SERVICE

Title IV of the Civil Service Reform Act of 1978 created the Senior Executive Service (SES). Personnel in the Executive Branch in managerial positions classifiable above GS-15 of the General Schedule and not designated above level IV of the Executive Schedule, or their equivalents, are in the SES. Exceptions include positions in government corporations, intelligence agencies, the FBI, and administrative law judges. The Foreign Service Act of 1980 created a Senior Foreign Service, effective February 15, 1981, which parallels the Senior Executive Service in most respects. Federal employees who are not in the competitive service or SES are in the excepted service. Examples of excepted positions include the entire U.S. Postal Service, Vietnam Era Veterans servicng under Veterans Readjustment Appointments, positions of which it is not practical to hold competitive examinations, such as teachers in dependents' schools overseas and attorneys, positions of a policy-determining and confidential nature, and most positions, in the Legislative and Judicial Branches. Foreign nationals holding jobs overseas are excepted by Executive Order.

Several tables in this publication report the number of Federal civilian employees in the competitive service and in the excepted service. Senior Executive Service employment is included in the excepted service in the Employment and Trends since both excepted service and SES data are reported together on the 113A monthly report.

APPOINTMENTS

Permanent Appointments - include 1) employees in the competitive service who hold career appointments and who either have completed probation or are not required to serve probation; 2) employees in the competitive service who hold career-conditional appointments, or who hold career appointments and are serving probation; 3) employees in the excepted service whose appointments carry no restrictions such as conditional, indefinite, specific time limitations, or trial periods; 4) employees in the excepted service who are serving trial periods or whose tenure is equivalent to career-conditional tenure in the competitive service; 5) employees in the Senior Executive Service (SES) who are not serving under "limited term and limited emergency" appointments.

Temporary and Indefinite Appointments - include all other employees who do not fall within any of the classifications described under Permanent Appointments.

CITIZENSHIP

Citizens - direct hire employees who owe allegiance to the United States by birth or naturalization regardless of their place of permanent residence or duty station.

Non-Citizens - Territories - direct hire employees who are citizens of another country and whose duty station is in the Territories of the United States (American Samoa, Baker Island, Guam, Howland Island, Jarvis Island, Johnston Atoll, Kingman Reef, Midway Island, Navassa Islands, Northern Mariana Islands, Palmyra Atoll, Puerto Rico, Trust Territories, Virgin Islands, Wake Island).

Non-Citizens - Foreign Country - (commonly referred to as "foreign nationals") direct hire employees who are citizens of another country and whose duty station is not the United States or its Territories.

Note: Federal civilian employees (citizens and non-citizens) are direct hire employees, i.e., they are under agreement or contract with the U.S. Government. Indirect hires (persons who, under agreement or contract with foreign governments, provide personal services to the U.S. Government) are not Federal civilian employees, and are not included in any employment figures in the Employment and Trends.

PAYROLL

Payroll is the sum of all wages, salaries and lump sum payments earned by Federal Civilian employees. Wages and salaries include gross base pay, overtime, night differential, cost of living allowances and holiday pay. Lump sum payments are monies paid for annual leave to employees who have separated from the Federal Government. Note that the payroll data is collected and presented in thousands of dollars.

ACCESSIONS AND SEPARATIONS

Accessions include appointments from civil service registers which are career or career-conditional appointments, excepted appointments, appointments to the Senior Executive Service, temporary appointments from registers, temporary appointments pending the establishment of registers, reappointments, reinstatements, restorations and returns to duty, and tranfers. Separations include quits, discharges, terminations, reductions in force, removals, transfers, extended leave without pay, suspensions, furloughs, deaths, retirements, and displacements. Turnover data are reported in this publication for the following categories.

Transfers - employees who, without a break in service of one full work day, change from a position in one agency to a position in another agency, including mass transfers of employees between agencies as a result of transfer of functions.

New Hires - new appointments of individuals who currently are not Federal civilian employees to positions in the competitive service, excepted service, and Senior Executive Service, including reinstatements based on prior service.

Restorations, Returns to Duty - includes employees who exercise reemployment rights following military service and those returning to duty following a reduction in force, from suspension or leave without pay that was scheduled to exceed 30 calendar days, from seasonal furlough, or pending action on reopening appeal.

Quits - voluntary resignations by employees or separations by agency if employee declines new assignment (decision not to accept a new job); abandons position (left the job); joins military; or fails to return from military furlough.

As of January 1979 agencies report employment data either as of (1) the last day of the month, or (2) the last day of the pay period closest to the end of the month, except at the end of the fiscal year when it must be as of the last day of the month to meet Office of Management and Budget (OMB) reporting requirements. Payroll and Turnover data is reported as of the beginning and thru the end of the report period.

SECTION I

FEDERAL CIVILIAN WORKFORCE STATISTICS

This section contains recent data dated "as of" the date printed on the publication cover. Selected tables also contain data for the previous month. The Employment and Trends (formerly titled the Monthly Release) is published on a bi-monthly basis; however, data for the non-published months and for non-published tables will be furnished upon request. Requestors should identify those tables needed by table number and send requests in writing to: Workforce Analysis and Statistics Division, (Room 5431), Office of Personnel Management, 1900 E Street, N.W., Washington, D. C. 20415.

The personnel summaries in Tables 1 and 17 present highlights on an overview of the information in Tables 2-16 and 18-31. Table 2 compares the current and previous month's Federal civilian employment by branch, agency and area. Tables 3-6 and 16 include 13-month trends for employment, payrolls, Executive Branch employment by work schedule, and turnover.

It should be noted that the net difference in turnovers (accessions and separations) will not necessarily balance with net monthly changes in employment due to lags in the reporting of transfers and variations in agency reporting periods. A separation personnel action is generally not prepared for an employee who transfers to another agency until an accession notice is received by the losing agency.

Where figures are expressed in thousands, each is rounded independently and not forced to add to rounded totals. All figures are subject to revision. Several tables present employment data for the Washington, D. C. Metropolitan Statistical Area (MSA). The Washington, D. C. MSA includes the District of Columbia; Arlington, Fairfax, Loudoun, Prince William, and Stafford Counties; the Cities of Alexandria, Fairfax, Falls Church, Manassas, and Manassas Park in Virginia; and Calvert, Charles, Frederick, Montgomery, and Prince Georges Counties in Maryland.

Special Note to Readers Regarding Executive Branch Employment Controls

Note that unless otherwise indicated, the employment data contained herein represents on board "head count" strength reporting, and includes the U.S. Postal Service, the civilian employees in the Department of Defense, and other employees exempt from Administration ceiling controls in the Youth Programs and Worker Trainee Opportunities Program. In some issues of the Employment and Trends, a contrasting measure of employment, i.e., full-time equivalent (FTE) work years is used to reflect non-postal, non-defense ceiling employment. (See the FULL-TIME EQUIVALENT EMPLOYMENT description on page 5.) Therefore, caution should be exercised when determining change in employment, e.g., "head count" vs. "FTE" and "Total" vs. "related-to-ceiling" employment. The reader should also be aware that the President has no control over employment levels in the Legislative and Judicial branches. The postal and defense workforces are controlled through the Congressional appropriations process.

SECTION II

SPECIAL FEATURE TABLES AND NARRATIVE

PROFILE OF THE "TYPICAL" FEDERAL EMPLOYEE

This section contains information about the "typical" Federal Civilian non-postal employee.

Profile of the "Typical" Federal Civilian Non-Postal Employee
as of March 31, 1986
by Christine E. Steele

Introduction

The "typical Federal civilian employee" is a topic of frequent interest for the news media, businesses, private citizens and organizations as well as the Congress, White House, and other Federal agencies. This factsheet lists the summary statistics often requested for speeches, letters and reports. (Data are for total on-board employment unless otherwise indicated (i.e., all work schedules) and may differ from other releases due to coverage -- e.g., agency, work schedule, tenure -- and as-of-dates.)

DEMOGRAPHIC CHARACTERISTICS

Age	41.8 years average for full-time permanent employees
Length of Service	13.4 years average for full-time permanent employees
Retirement Eligibility	7.7% of full-time permanents covered under Civil Service Retirement (excluding hires since January 1984)
Education Level	30% have Bachelor's Degree or higher degree
Gender	58% men and 42% women
Race and National Origin	26.1% minority group members: 16.6% Black, 5.0% Hispanic, 3.0% Asian/Pacific Islander, 1.5% Native American
Handicapped Status	7% have handicaps
Veterans Preference	35% have veterans preference (17% are Vietnam Era veterans)
Retired Military	5.0% of total: 0.6% officers and 4.4% enlisted personnel

JOB CHARACTERISTICS

Annual Base Salary	$26,861 average for full-time permanent employees
	2% paid higher rates for retention in shortage occupations
Grade	8.2 average General Schedule grade
Pay System	72% General Schedule, 20% wage systems, 8% others
Work Schedule	92% full-time, 5% part-time and 3% intermittent
Tenure	89% permanent appointments
	86% full-time permanent appointments
Occupation and PATCO	81% White-Collar (19% Professional, 22% Administrative 17% Technical, 21% Clerical, 2% Other)
	19% Blue-Collar
Supervisory Status	10% Supervisors, 2% Managers, and 0.4% Executives
Union Representation	78% eligible and 57% represented
Service (Position Occupied)	82% Competitive and 18% Excepted
Agency	50% Department of Defense and 12% Veterans Administration
Geographic Location	96% USA and 14% Washington, DC Metropolitan Area
Retirement Plan	75% under Civil Service Retirement (including 2% in special plan for law enforcement and firefighter personnel), 14% under Civil Service Retirement and Social Security, 9% under Social Security, 1% under Foreign Service Retirement and 1% none.
Life Insurance	91% eligible for Federal Employees' Group Life Insurance: 13% waived, 25% have basic coverage and 53% have more than basic coverage

Data Source

U.S. Office of Personnel Management's Central Personnel Data File covers Federal civilian employees except Members and employees of Congress, Architect of the Capitol, Botanic Garden, Library of Congress, Congressional Budget Office, Copyright Royalty Tribunal, Office of Technology Assessment, Judicial Branch other than Administrative Office of the U.S. Courts, White House Office, Office of the Vice President, Federal Reserve Board, U.S. Postal Service, Postal Rate Commission, Justice Department's Federal Bureau of Investigation, Defense Intelligence Agency, Central Intelligence Agency, National Security Agency, and foreign nationals employed overseas. Please note that, due to differing agency coverages, these data are not comparable to those regularly published in OPM's Federal Civilian Workforce Statistics: Employment and Trends.

EMPLOYMENT AND TRENDS

FEDERAL CIVILIAN WORKFORCE STATISTICS

**********NOTICE**********

The Employment and Trends is now available through the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

****

The Employment and Trends (formerly called the Monthly Release) presents employment information on the Federal civilian workforce based on reports submitted by each department and agency. Current employment data by branch, agency, and location; 13-month trends of employment, payroll, and turnover; and accession and separation rates are summarized in detailed statistical tables. Monthly employment data are occasionally supplemented by reports from other periodic surveys on the occupational, geographic, and wage and salary characteristics of Federal civilian employees. Please refer to the Table of Contents for the particular data that may be included in this report. The Data Source and Definition section provides details on the method of data collection and definitions of the classifications used in this publication.

This report was prepared under the direction of John E. Curnow, Chief Workforce Analysis and Statistics Division. The manager for this report was Denise Rosette of the Surveys and Information Branch, Ronnie H. Byers Chief. Additional information may be obtained from the Workforce Analysis and Statistics Division, Office of Personnel Management, 1900 E Street, N.W. Washington, D.C. 20415; Phone 202-632-5416.

Dr. Philip A. D. Schneider
Assistant Director for Workforce Information
Personnel Systems and Oversight Group

SECTION II SPECIAL FEATURE TABLES AND NARRATIVE 68

FEDERAL CIVILIAN WORK YEARS AND PERSONNEL COSTS IN THE EXECUTIVE BRANCH FOR FISCAL YEAR 1985 69

FEDERAL CIVILIAN LEAVE DATA FOR THE EXECUTIVE BRANCH LEAVE YEAR 1985 73

*Data available upon request (See SECTION I).

DATA SOURCE AND DEFINITIONS

Statistics in this report were collected by the Office of Personnel Management and are based on the Monthly Report of Federal Civilian Employment (Standard Form 113A), which is submitted by all departments and agencies of the Federal Government except the Central Intelligence Agency, the National Security Agency and the Defense Intelligence Agency. OPM does not collect personnel data from the District of Columbia Government. Within this report, employment data are reported under the following categories:

WORK SCHEDULES

Full-time employees - those employees who are regularly scheduled to work the number of hours and days required by the administrative work-week for their employment group or class. (Most full-time employees have an administrative work-week of 5 days of 8 hours each.)

Part-time employees - those employees who are regularly employed on a pre-scheduled tour of duty which is less than the specified hours or days of work for full-time employees in the same group or class.

Intermittent employees - those employees who are employed on an irregular or occasional basis, with hours or days of work not on a prearranged schedule, and with compensation only for the time actually employed or for services actually rendered. As of January 1979, an intermittent employee who separated prior to the as-of date of the report is not counted.

POSITIONS

Permanent position - one which has been established without time limit, or for a period of a year or more, or which, in any event, has been occupied for a year or more (regardless of the intent when it was established).

Temporary position - one which has been established for a limited period of less than a year and which has not been occupied for more than a year.

RELATED TO CEILING - includes all employees covered by the President's employment ceiling as of the report date. Disadvantaged youths under the Stay-In-School Campaign (Schedule A, excepted authority 213.3102(w)), the Summer Aid Program (Schedule A, excepted authority 213.3102(v)), and the Federal Junior Fellowship Program (Schedule B, excepted authority 213.3202(f)), and employees in developmental jobs in the Worker Trainee Opportunity Program are excluded from personnel ceilings.

FULL-TIME EQUIVALENT EMPLOYMENT

Beginning in Fiscal Year 1982 the full-time equivalent (FTE) resource management system replaced the Executive Branch numerical end-of-year personnel ceilings which had been used to control the size of the Federal workforce for many years. Under the FTE system, workforce estimates assigned to agencies are based on the number of work years required to achieve agency missions and objectives. (One work year is equivalent to 2,080 hours of work which could mean, for example, one employee on a full-time schedule of 40 hours for 52 weeks, or two part-time employees for 20 hours per week each for the same period.) The work year estimate assigned is based on the maximum cumulative number of hours that can be worked by all employees covered by ceiling controls, including full-time, part-time and intermittent employees. Each hour worked in the agency during the course of the year (with the exception of overtime and certain other exempt work) is accrued under this ceiling. An agency's full-time equivalency for the current period is the sum of the straight time hours worked during the two biweekly report periods by ceiling-related employees divided by 160 -- this is the number of hours available to a full-time employee during the four-week reporting period.

COMPETITIVE SERVICE

The competitive service consists of all civil service positions in the Executive Branch except: (a) positions that are specifically excepted from the competitive service by or under statute; (b) positions to which appointments are made by nomination for confirmation by the Senate, unless the Senate otherwise directs, and (c) positions in the Senior Executive Service. The competitive service also includes civil service positions outside the Executive Branch that are specifically included in the competitive service by statute.

EXCEPTED SERVICE AND SENIOR EXECUTIVE SERVICE

Title IV of the Civil Service Reform Act of 1978 created the Senior Executive Service (SES). Personnel in the Executive Branch in managerial positions classifiable above GS-15 of the General Schedule and not designated above level IV of the Executive Schedule, or their equivalents, are in the SES. Exceptions include positions in government corporations, intelligence agencies, the FBI, and administrative law judges. The Foreign Service Act of 1980 created a Senior Foreign Service, effective February 15, 1981, which parallels the Senior Executive Service in most respects. Federal employees who are not in the competitive service or SES are in the excepted service. Examples of excepted positions include the entire U.S. Postal Service, Vietnam Era Veterans servicng under Veterans Readjustment Appointments, positions of which it is not practical to hold competitive examinations, such as teachers in dependents' schools overseas and attorneys, positions of a policy-determining and confidential nature, and most positions, in the Legislative and Judicial Branches. Foreign nationals holding jobs overseas are excepted by Executive Order.

Several tables in this publication report the number of Federal civilian employees in the competitive service and in the excepted service. Senior Executive Service employment is included in the excepted service in the Employment and Trends since both excepted service and SES data are reported together on the 113A monthly report.

APPOINTMENTS

Permanent Appointments - include 1) employees in the competitive service who hold career appointments and who either have completed probation or are not required to serve probation; 2) employees in the competitive service who hold career-conditional appointments, or who hold career appointments and are serving probation; 3) employees in the excepted service whose appointments carry no restrictions such as conditional, indefinite, specific time limitations, or trial periods; 4) employees in the excepted service who are serving trial periods or whose tenure is equivalent to career-conditional tenure in the competitive service; 5) employees in the Senior Executive Service (SES) who are not serving under "limited term and limited emergency" appointments.

Temporary and Indefinite Appointments - include all other employees who do not fall within any of the classifications described under Permanent Appointments.

CITIZENSHIP

Citizens - direct hire employees who owe allegiance to the United States by birth or naturalization regardless of their place of permanent residence or duty station.

Non-Citizens - Territories - direct hire employees who are citizens of another country and whose duty station is in the Territories of the United States (American Samoa, Baker Island, Guam, Howland Island, Jarvis Island, Johnston Atoll, Kingman Reef, Midway Island, Navassa Islands, Northern Mariana Islands, Palmyra Atoll, Puerto Rico, Trust Territories, Virgin Islands, Wake Island).

Non-Citizens - Foreign Country - (commonly referred to as "foreign nationals") direct hire employees who are citizens of another country and whose duty station is not the United States or its Territories.

Note: Federal civilian employees (citizens and non-citizens) are direct hire employees, i.e., they are under agreement or contract with the U.S. Government. Indirect hires (persons who, under agreement or contract with foreign governments, provide personal services to the U.S. Government) are not Federal civilian employees, and are not included in any employment figures in the Employment and Trends.

PAYROLL

Payroll is the sum of all wages, salaries and lump sum payments earned by Federal Civilian employees. Wages and salaries include gross base pay, overtime, night differential, cost of living allowances and holiday pay. Lump sum payments are monies paid for annual leave to employees who have separated from the Federal Government. Note that the payroll data is collected and presented in thousands of dollars.

ACCESSIONS AND SEPARATIONS

Accessions include appointments from civil service registers which are career or career-conditional appointments, excepted appointments, appointments to the Senior Executive Service, temporary appointments from registers, temporary appointments pending the establishment of registers, reappointments, reinstatements, restorations and returns to duty, and tranfers. Separations include quits, discharges, terminations, reductions in force, removals, transfers, extended leave without pay, suspensions, furloughs, deaths, retirements, and displacements. Turnover data are reported in this publication for the following categories.

Transfers - employees who, without a break in service of one full work day, change from a position in one agency to a position in another agency, including mass transfers of employees between agencies as a result of transfer of functions.

New Hires - new appointments of individuals who currently are not Federal civilian employees to positions in the competitive service, excepted service, and Senior Executive Service, including reinstatements based on prior service.

Restorations, Returns to Duty - includes employees who exercise reemployment rights following military service and those returning to duty following a reduction in force, from suspension or leave without pay that was scheduled to exceed 30 calendar days, from seasonal furlough, or pending action on reopening appeal.

Quits - voluntary resignations by employees or separations by agency if employee declines new assignment (decision not to accept a new job); abandons position (left the job); joins military; or fails to return from military furlough.

As of January 1979 agencies report employment data either as of (1) the last day of the month, or (2) the last day of the pay period closest to the end of the month, except at the end of the fiscal year when it must be as of the last day of the month to meet Office of Management and Budget (OMB) reporting requirements. Payroll and Turnover data is reported as of the beginning and thru the end of the report period.

SECTION I

FEDERAL CIVILIAN WORKFORCE STATISTICS

This section contains recent data dated "as of" the date printed on the publication cover. Selected tables also contain data for the previous month. The Employment and Trends (formerly titled the Monthly Release) is published on a bi-monthly basis; however, data for the non-published months and for non-published tables will be furnished upon request. Requestors should identify those tables needed by table number and send requests in writing to: Workforce Analysis and Statistics Division, (Room 5431), Office of Personnel Management, 1900 E Street, N.W., Washington, D. C. 20415.

The personnel summaries in Tables 1 and 17 present highlights on an overview of the information in Tables 2-16 and 18-31. Table 2 compares the current and previous month's Federal civilian employment by branch, agency and area. Tables 3-6 and 16 include 13-month trends for employment, payrolls, Executive Branch employment by work schedule, and turnover.

It should be noted that the net difference in turnovers (accessions and separations) will not necessarily balance with net monthly changes in employment due to lags in the reporting of transfers and variations in agency reporting periods. A separation personnel action is generally not prepared for an employee who transfers to another agency until an accession notice is received by the losing agency.

Where figures are expressed in thousands, each is rounded independently and not forced to add to rounded totals. All figures are subject to revision. Several tables present employment data for the Washington, D. C. Metropolitan Statistical Area (MSA). The Washington, D. C. MSA includes the District of Columbia; Arlington, Fairfax, Loudoun, Prince William, and Stafford Counties; the Cities of Alexandria, Fairfax, Falls Church, Manassas, and Manassas Park in Virginia; and Calvert, Charles, Frederick, Montgomery, and Prince Georges Counties in Maryland.

Special Note to Readers Regarding Executive Branch Employment Controls

Note that unless otherwise indicated, the employment data contained herein represents on board "head count" strength reporting, and includes the U.S. Postal Service, the civilian employees in the Department of Defense, and other employees exempt from Administration ceiling controls in the Youth Programs and Worker Trainee Opportunities Program. In some issues of the Employment and Trends, a contrasting measure of employment, i.e., full-time equivalent (FTE) work years is used to reflect non-postal, non-defense ceiling employment. (See the FULL-TIME EQUIVALENT EMPLOYMENT description on page 5.) Therefore, caution should be exercised when determining change in employment, e.g., "head count" vs. "FTE" and "Total" vs. "related-to-ceiling" employment. The reader should also be aware that the President has no control over employment levels in the Legislative and Judicial branches. The postal and defense workforces are controlled through the Congressional appropriations process.

FEDERAL CIVILIAN WORK YEARS AND PERSONNEL COSTS

FEDERAL CIVILIAN LEAVE DATA

This section contains information on Federal civilian work years and personnel costs in the Executive Branch for Fiscal Year 1985 and Federal civilian leave data for the Executive Branch Leave Year 1985.

Federal Civilian Work Years and Personnel Costs in the Executive Branch for Fiscal Year 1985

by Mary Aileen McCarthy

Introduction

This article summarizes the results of the Fiscal Year 1985 Work Years and Personnel Costs Survey conducted by the Office of Personnel Management. Data for this survey were obtained from agencies with 100 or more employees. The U. S. Postal Service (including rural carriers) is included in this survey.

Basic Pay and Work Years

Basic work years (including full-time permanent, full-time temporary, part-time, and intermittent employees) accounted for 95.8 percent of the 2,966,695 total work years. The remaining 4.2 percent (123,397 work years) was a combination of overtime and holiday work years.

Total direct costs, including basic, premium, and benefit pay was $88.96 billion for fiscal year 1985 including $71.7 billion for basic pay, $5.6 billion for premium pay, and $11.6 billion for employee benefits. Based on total work years, the cost per work year was $29,987 consisting of $26,085 (87.0%) for direct pay (basic plus premium) and $3,902 (13.0%) for benefit pay. This was an increase of 4.38 percent over the previous year and reflects the 4.0 percent general pay increase effective in January 1985.

Premium Pay

About $5.6 billion was spent on premium pay in fiscal year 1985, an increase of 1.02 percent over the previous year. A large part of this increase was due to a rise in overtime ($87.7 million) and nightwork differential ($44.9 million). The U.S. Postal Service reported a drop in overtime (-$31.4 million) while Defense reported an increase of $120.0 million. The U.S. Postal Service also had a large decrease in Cash Awards (-$215.0 million). This drop was due to a change in a three year contract to pay cash awards instead of pay raises.

Employee Benefits

The employee benefit pay includes only direct costs to the agencies (including agency payments to the Social Security and Civil Service Retirement Systems), but does not reflect payments from the general fund made through special appropriations (e.g., Government payments to cover unfunded retirement liability). Employee benefit pay amounted to $11.6 billion, including $5.0 billion to the Civil Service Retirement System, $1.1 billion to the Social Security System, $2.7 billion for Employee Health Insurance, and $1.25 billion for the U.S. Postal Service unfunded liability payment to the Civil Service Retirement System. Total agency benefit payments increased $885 million (8.3%) from fiscal year 1984 to fiscal year 1985. The largest increase occurred in the Federal Insurance Contributions Act (FICA) payments due to the extension of Social Security coverage to newly hired Federal employees and certain already-employed senior Government officials continuing since January 1, 1984. The Federal Employees Compensation Act (FECA -- payments to Department of Labor Office of Worker's Compensation Programs) reported a sizeable increase ($220 million) to $851 million, most of which occurred in the U.S. Postal Service ($155 million) and Defense ($26 million).

Work-Years and Personnel Cost in the Executive Branch
Fiscal Years 1984 and 1985

	Fiscal Year 1985		Fiscal Year 1984		Change From FY84

2/ Due to increases in the Civil Service Retirement System to extend Social Security coverage to newly hired Federal employees and certain already-employed senior Government officials after January 1, 1984.

Federal Civilian Leave Data for the Executive Branch
Leave Year 1985

The following data on the previous year leave usage by Federal civilian employees are obtained from the Annual Survey of Work Years and Personnel Costs. The various leave categories covered are:

- Annual leave includes the number of days paid for but not worked and charged to annual leave, home leave, and for lump-sum payments made to employees at the time of separation.
- Sick leave includes the number of days charged to sick leave for active employees and for those scheduled to be retired for disability.
- Holidays are the aggregate number of Federal holidays paid for but not worked.
- Administrative leave includes the aggregate number of days charged to administrative leave as defined by Federal Personnel Manual Chapters 610 and 630. Types include shore leave (vessel employee), military leave (National Guard and reserve duty), court leave (jury and witness), hazardous weather dismissals, and excused absences for registration and voting, civil defense activities, participation in military funerals, blood donations, taking examinations, attending conferences and conventions, representing employee organizations, and leave granted when a field office is closed on a local holiday because Federal work may not be properly performed.
- Other leave includes all leave used regardless of type for employees not covered by 5 U.S.C. 6301. Excluded from coverage are certain part-time and temporary employees (construction), Panama Canal Zone employees, Veterans Administration physicians, dentists, and nurses, alien employees in foreign areas, certain teachers, and Executive Branch officials appointed or designated by the President.

Leave data actually represents the "leave year," which differs from the calendar year by a few days according to the pay period schedules of the reporting agencies. Leave days used totaled 109,661,050 -- a 1.38 percent increase from 1984. During this same period, the average number of leave days used per employee decreased slightly (-0.14 days) to 38.56 days.

Leave used by Executive Branch employees during leave year 1985 had a value of $11.1 billion or 15.45 percent of basic pay. This represented an increase of $669 million (+6.43%) over 1984. Reflecting the general pay increase in January 1985, the average value per leave day also increased 4.97% from $96.31 in leave year 1984 to $101.10 in leave year 1985.

For employees whose leave is covered by Chapter 63 (Section 6301) of title 5, United States Code (i.e., annual, sick, holiday, and administrative leave), the statistics for leave year 1984 and leave year 1985 showed that the average usage was 38.78 days for both years. The changes in average number of leave days used by type from 1984 to 1985 were: annual leave decreased slightly (-0.18 days) to 20.23 days; sick leave increased slightly (+ 0.04 days) to 8.55 days; holiday leave rose slightly (+ 0.08 days) to 8.30 days; and administrative leave days increased slightly (+ 0.06 days) to 1.70 days.

The number of annual leave days forfeited by Federal employees in leave year 1985 showed an increase (+2,233) from the previous year. The value of annual leave forfeited by employees due to carry-over limitations was estimated to be $99.1 million in leave year 1985 versus $93.3 million the previous year.

Sick leave credited for retirement showed a decrease to $6.7 million days in leave year 1985. This contrasts with 6.8 million days in leave year 1984, 6.5 million days in 1983, and 5.9 million days in 1982. The total number of sick leave days earned was 34,400,391 days (up from 33,573,653 days in leave year 1984) and sick leave used was 23,183,144 days (up from 22,776,532 in leave year 1984.

Defense and the U.S. Postal Service together (with 63 percent of the total employment work years) accounted for 65 percent of annual leave, 61 percent of sick leave, 63 percent of holiday leave, 46 percent of administrative leave, and 25 percent of the "other" leave category. Defense agencies and the Postal Service also accounted for 62 percent of annual leave carried over, 69 percent of sick leave carried over, and 65 percent of sick leave credited for retirement. Defense alone accounted for 57 percent of the annual leave forfeited due to the 240 hours carry over limitation. (The Table on the following page summarizes data on leave usage in leave years 1984 and 1985.)

Leave Used and Its Value

Formerly Titled the Monthly Release. Now a Bimonthly Publication.

PM 1.15:

EMPLOYMENT AND TRENDS

FEDERAL CIVILIAN WORKFORCE STATISTICS

**********NOTICE**********

The Employment and Trends is now available through the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

****

The Employment and Trends (formerly called the Monthly Release) presents employment information on the Federal civilian workforce based on reports submitted by each department and agency. Current employment data by branch, agency, and location; 13-month trends of employment, payroll, and turnover; and accession and separation rates are summarized in detailed statistical tables. Monthly employment data are occasionally supplemented by reports from other periodic surveys on the occupational, geographic, and wage and salary characteristics of Federal civilian employees. Please refer to the Table of Contents for the particular data that may be included in this report. The Data Source and Definition section provides details on the method of data collection and definitions of the classifications used in this publication.

This report was prepared under the direction of John E. Curnow, Chief Workforce Analysis and Statistics Division. The manager for this report was May Eng of the Surveys and Information Branch, Ronnie H. Byers Chief. Additional information may be obtained from the Workforce Analysis and Statistics Division, Office of Personnel Management, 1900 E Street, N.W. Washington, D.C. 20415; Phone 202-632-4920.

Dr. Philip A. D. Schneider
Assistant Director for Workforce Information
Personnel Systems and Oversight Group

SECTION II -- SPECIAL FEATURE TABLES AND NARRATIVE 68

FULL-TIME CIVILIAN EMPLOYMENT AND SALARY STATISTICS AS OF MARCH 31, 1986..... 69

*Data available upon request (See SECTION I).

DATA SOURCE AND DEFINITIONS

Statistics in this report were collected by the Office of Personnel Management and are based on the Monthly Report of Federal Civilian Employment (Standard Form 113A), which is submitted by all departments and agencies of the Federal Government except the Central Intelligence Agency, the National Security Agency and the Defense Intelligence Agency. OPM does not collect personnel data from the District of Columbia Government. Within this report, employment data are reported under the following categories:

WORK SCHEDULES

Full-time employees - those employees who are regularly scheduled to work the number of hours and days required by the administrative work-week for their employment group or class. (Most full-time employees have an administrative work-week of 5 days of 8 hours each.)

Part-time employees - those employees who are regularly employed on a pre-scheduled tour of duty which is less than the specified hours or days of work for full-time employees in the same group or class.

Intermittent employees - those employees who are employed on an irregular or occasional basis, with hours or days of work not on a prearranged schedule, and with compensation only for the time actually employed or for services actually rendered. As of January 1979, an intermittent employee who separated prior to the as-of date of the report is not counted.

POSITIONS

Permanent position - one which has been established without time limit, or for a period of a year or more, or which, in any event, has been occupied for a year or more (regardless of the intent when it was established).

Temporary position - one which has been established for a limited period of less than a year and which has not been occupied for more than a year.

RELATED TO CEILING - includes all employees covered by the President's employment ceiling as of the report date. Disadvantaged youths under the Stay-In-School Campaign (Schedule A, excepted authority 213.3102(w)), the Summer Aid Program (Schedule A, excepted authority 213.3102(v)), and the Federal Junior Fellowship Program (Schedule B, excepted authority 213.3202(f)), and employees in developmental jobs in the Worker Trainee Opportunity Program are excluded from personnel ceilings.

FULL-TIME EQUIVALENT EMPLOYMENT

Beginning in Fiscal Year 1982 the full-time equivalent (FTE) resource management system replaced the Executive Branch numerical end-of-year personnel ceilings which had been used to control the size of the Federal workforce for many years. Under the FTE system, workforce estimates assigned to agencies are based on the number of work years required to achieve agency missions and objectives. (One work year is equivalent to 2,080 hours of work which could mean, for example, one employee on a full-time schedule of 40 hours for 52 weeks, or two part-time employees for 20 hours per week each for the same period.) The work year estimate assigned is based on the maximum cumulative number of hours that can be worked by all employees covered by ceiling controls, including full-time, part-time and intermittent employees. Each hour worked in the agency during the course of the year (with the exception of overtime and certain other exempt work) is accrued under this ceiling. An agency's full-time equivalency for the current period is the sum of the straight time hours worked during the two biweekly report periods by ceiling-related employees divided by 160 -- this is the number of hours available to a full-time employee during the four-week reporting period.

COMPETITIVE SERVICE

The competitive service consists of all civil service positions in the Executive Branch except: (a) positions that are specifically excepted from the competitive service by or under statute; (b) positions to which appointments are made by nomination for confirmation by the Senate, unless the Senate otherwise directs, and (c) positions in the Senior Executive Service. The competitive service also includes civil service positions outside the Executive Branch that are specifically included in the competitive service by statute.

EXCEPTED SERVICE AND SENIOR EXECUTIVE SERVICE

Title IV of the Civil Service Reform Act of 1978 created the Senior Executive Service (SES). Personnel in the Executive Branch in managerial positions classifiable above GS-15 of the General Schedule and not designated above level IV of the Executive Schedule, or their equivalents, are in the SES. Exceptions include positions in government corporations, intelligence agencies, the FBI, and administrative law judges. The Foreign Service Act of 1980 created a Senior Foreign Service, effective February 15, 1981, which parallels the Senior Executive Service in most respects. Federal employees who are not in the competitive service or SES are in the excepted service. Examples of excepted positions include the entire U.S. Postal Service, Vietnam Era Veterans servicng under Veterans Readjustment Appointments, positions of which it is not practical to hold competitive examinations, such as teachers in dependents' schools overseas and attorneys, positions of a policy-determining and confidential nature, and most positions, in the Legislative and Judicial Branches. Foreign nationals holding jobs overseas are excepted by Executive Order.

Several tables in this publication report the number of Federal civilian employees in the competitive service and in the excepted service. Senior Executive Service employment is included in the excepted service in the Employment and Trends since both excepted service and SES data are reported together on the 113A monthly report.

APPOINTMENTS

Permanent Appointments - include 1) employees in the competitive service who hold career appointments and who either have completed probation or are not required to serve probation; 2) employees in the competitive service who hold career-conditional appointments, or who hold career appointments and are serving probation; 3) employees in the excepted service whose appointments carry no restrictions such as conditional, indefinite, specific time limitations, or trial periods; 4) employees in the excepted service who are serving trial periods or whose tenure is equivalent to career-conditional tenure in the competitive service; 5) employees in the Senior Executive Service (SES) who are not serving under "limited term and limited emergency" appointments.

Temporary and Indefinite Appointments - include all other employees who do not fall within any of the classifications described under Permanent Appointments.

CITIZENSHIP

Citizens - direct hire employees who owe allegiance to the United States by birth or naturalization regardless of their place of permanent residence or duty station.

Non-Citizens - Territories - direct hire employees who are citizens of another country and whose duty station is in the Territories of the United States (American Samoa, Baker Island, Guam, Howland Island, Jarvis Island, Johnston Atoll, Kingman Reef, Midway Island, Navassa Islands, Northern Mariana Islands, Palmyra Atoll, Puerto Rico, Trust Territories, Virgin Islands, Wake Island).

Non-Citizens - Foreign Country - (commonly referred to as "foreign nationals") direct hire employees who are citizens of another country and whose duty station is not the United States or its Territories.

Note: Federal civilian employees (citizens and non-citizens) are direct hire employees, i.e., they are under agreement or contract with the U.S. Government. Indirect hires (persons who, under agreement or contract with foreign governments, provide personal services to the U.S. Government) are not Federal civilian employees, and are not included in any employment figures in the Employment and Trends.

PAYROLL

Payroll is the sum of all wages, salaries and lump sum payments earned by Federal Civilian employees. Wages and salaries include gross base pay, overtime, night differential, cost of living allowances and holiday pay. Lump sum payments are monies paid for annual leave to employees who have separated from the Federal Government. Note that the payroll data is collected and presented in thousands of dollars.

ACCESSIONS AND SEPARATIONS

Accessions include appointments from civil service registers which are career or career-conditional appointments, excepted appointments, appointments to the Senior Executive Service, temporary appointments from registers, temporary appointments pending the establishment of registers, reappointments, reinstatements, restorations and returns to duty, and tranfers. Separations include quits, discharges, terminations, reductions in force, removals, transfers, extended leave without pay, suspensions, furloughs, deaths, retirements, and displacements. Turnover data are reported in this publication for the following categories.

Transfers - employees who, without a break in service of one full work day, change from a position in one agency to a position in another agency, including mass transfers of employees between agencies as a result of transfer of functions.

New Hires - new appointments of individuals who currently are not Federal civilian employees to positions in the competitive service, excepted service, and Senior Executive Service, including reinstatements based on prior service.

Restorations, Returns to Duty - includes employees who exercise reemployment rights following military service and those returning to duty following a reduction in force, from suspension or leave without pay that was scheduled to exceed 30 calendar days, from seasonal furlough, or pending action on reopening appeal.

Quits - voluntary resignations by employees or separations by agency if employee declines new assignment (decision not to accept a new job); abandons position (left the job); joins military; or fails to return from military furlough.

As of January 1979 agencies report employment data either as of (1) the last day of the month, or (2) the last day of the pay period closest to the end of the month, except at the end of the fiscal year when it must be as of the last day of the month to meet Office of Management and Budget (OMB) reporting requirements. Payroll and Turnover data is reported as of the beginning and thru the end of the report period.

SECTION I

FEDERAL CIVILIAN WORKFORCE STATISTICS

This section contains recent data dated "as of" the date printed on the publication cover. Selected tables also contain data for the previous month. The Employment and Trends (formerly titled the Monthly Release) is published on a bi-monthly basis; however, data for the non-published months and for non-published tables will be furnished upon request. Requestors should identify those tables needed by table number and send requests in writing to: Workforce Analysis and Statistics Division, (Room 5431), Office of Personnel Management, 1900 E Street, N.W., Washington, D. C. 20415.

The personnel summaries in Tables 1 and 17 present highlights on an overview of the information in Tables 2-16 and 18-31. Table 2 compares the current and previous month's Federal civilian employment by branch, agency and area. Tables 3-6 and 16 include 13-month trends for employment, payrolls, Executive Branch employment by work schedule, and turnover.

It should be noted that the net difference in turnovers (accessions and separations) will not necessarily balance with net monthly changes in employment due to lags in the reporting of transfers and variations in agency reporting periods. A separation personnel action is generally not prepared for an employee who transfers to another agency until an accession notice is received by the losing agency.

Where figures are expressed in thousands, each is rounded independently and not forced to add to rounded totals. All figures are subject to revision. Several tables present employment data for the Washington, D. C. Metropolitan Statistical Area (MSA). The Washington, D. C. MSA includes the District of Columbia; Arlington, Fairfax, Loudoun, Prince William, and Stafford Counties; the Cities of Alexandria, Fairfax, Falls Church, Manassas, and Manassas Park in Virginia; and Calvert, Charles, Frederick, Montgomery, and Prince Georges Counties in Maryland.

Special Note to Readers Regarding Executive Branch Employment Controls

Note that unless otherwise indicated, the employment data contained herein represents on board "head count" strength reporting, and includes the U.S. Postal Service, the civilian employees in the Department of Defense, and other employees exempt from Administration ceiling controls in the Youth Programs and Worker Trainee Opportunities Program. In some issues of the Employment and Trends, a contrasting measure of employment, i.e., full-time equivalent (FTE) work years is used to reflect non-postal, non-defense ceiling employment. (See the FULL-TIME EQUIVALENT EMPLOYMENT description on page 5.) Therefore, caution should be exercised when determining change in employment, e.g., "head count" vs. "FTE" and "Total" vs. "related-to-ceiling" employment. The reader should also be aware that the President has no control over employment levels in the Legislative and Judicial branches. The postal and defense workforces are controlled through the Congressional appropriations process.

FEDERAL CIVILIAN EMPLOYMENT TRENDS
FISCAL YEAR 1986

In non-Postal, non-Defense Executive Branch agencies, employment is controlled by full-time-equivalent work year ceilings set by the Administration. Employment in the Legislative and Judicial branches and in the U.S. Postal Service and Department of Defense military functions is controlled by fiscal management. All data below are for fiscal year 1986 (ending September 30, 1986).

- Total Federal civilian employment was 3,021,807:

Legislative Branch	36,490
Judicial Branch	18,966
Executive Branch (excl. USPS)	2,175,391
U.S. Postal Service	790,960

- Within the Executive Branch:

  Total Executive Branch non-Postal employment was down 35,946 from a year ago.

  Ceiling-related employment in the non-Postal, non-Defense agencies was 1,122,315 -- down 117,400 since January 1981.

  Department of Defense (military functions) employment was 1,027,652 -- up 102,329 since January 1981.

  Non-ceiling Youth Programs Employment was 25,365.

- Executive Branch non-Postal, non-Defense agencies used 90,779 fewer work years in fiscal year 1986 than in fiscal year 1981.

  A number of agencies were particularly successful in delivering services with fewer than originally allocated work years for FY 86: State, Agriculture, Commerce, Labor, Environmental Protection Agency, General Services Administration, Equal Employment Opportunity Commission, Federal Emergency Management Agency, National Labor Relations Board, Office of Personnel Management, Small Business Administration, Smithsonian Institution, Tennessee Valley Authority, and Agency for International Development.

The following table summarizes the fiscal year 1986 Executive Branch non-Postal employment and work year status.

SECTION II

SPECIAL FEATURE TABLES AND NARRATIVE

FULL-TIME CIVILIAN EMPLOYMENT AND SALARY STATISTICS

This section contains information on full-time civilian employment and salary statistics as of March 31, 1986.

Full-Time Civilian Employment and Salaries
March 31, 1986
by Mary Aileen McCarthy

Data presented in the following tables are based on a Salary and Wage Survey of Federal civilian full-time employees conducted annually by the Office of Personnel Management. The Central Personnel Data File (CPDF) is the primary source for this survey. Data for agencies not in CPDF are obtained from special reports in response to an Office of Personnel Management bulletin. The Central Intelligence Agency and the National Security Agency are exempt by law from reporting. Also excluded from this report are: Board of Governors, Federal Reserve System, and U.S. Postal Service. Due to differences in population coverage and reporting dates, these data do not directly compare to other data in Employment and Trends.

Employment Totals by Federal Agency and Pay Systems (See Table 1)

There were 2,010,349 full-time non-postal Federal civilian employees covered by OPM's annual Salary and Wage Survey as of March 31, 1986. In the survey, employees under the General Schedule pay system (1,462,367) comprised 72.8 percent of total; wage system (blue-collar) employees (408,907) accounted for 20.3 percent; the remaining 6.9 percent (139,075) were in other pay systems.

Aggregate and Average Salaries for Major Geographic Areas (See Table 2)

The average salary of all full-time employees as of March 31, 1986, was $26,369; average salaries for General Schedule and wage system employees were $26,274 and $23,837, respectively. The distribution of employment and salaries by geographic areas shows that the Washington, D.C., Metropolitan Area (where most agencies have their headquarters) has 14.4 percent (290,218) of the employees with an average salary of $32,291.

Most (96.4 percent) of covered employment (1,923,450) worked in the United States and had an average salary of $26,387; 2.9 percent worked in foreign countries and less than 1 percent in the U.S. Territories; average salaries in foreign countries and U.S. Territories were $25,613 and $22,546, respectively.

Employment and Salaries by States and the District of Columbia (See Table 3)

California reported the largest employment (212,769), and the District of Columbia next with 169,561; Vermont reported the smallest Federal employment (2,258). States having the highest and lowest overall average salaries were the District of Columbia ($32,802) and Kentucky ($22,836), respectively.

EMPLOYMENT AND TRENDS

FEDERAL CIVILIAN WORKFORCE STATISTICS

**********NOTICE**********

The Employment and Trends is now available through the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

****

The Employment and Trends (formerly called the Monthly Release) presents employment information on the Federal civilian workforce based on reports submitted by each department and agency. Current employment data by branch, agency, and location; 13-month trends of employment, payroll, and turnover; and accession and separation rates are summarized in detailed statistical tables. Monthly employment data are occasionally supplemented by reports from other periodic surveys on the occupational, geographic, and wage and salary characteristics of Federal civilian employees. Please refer to the Table of Contents for the particular data that may be included in this report. The Data Source and Definition section provides details on the method of data collection and definitions of the classifications used in this publication.

This report was prepared under the direction of John E. Curnow, Chief Workforce Analysis and Statistics Division. The manager for this report was May Eng of the Surveys and Information Branch, Ronnie H. Byers Chief. Additional information may be obtained from the Workforce Analysis and Statistics Division, Office of Personnel Management, 1900 E Street, N.W. Washington, D.C. 20415; Phone 202-632-4920.

Dr. Philip A. D. Schneider
Assistant Director for Workforce Information
Personnel Systems and Oversight Group

DATA SOURCE AND DEFINITIONS

Statistics in this report were collected by the Office of Personnel Management and are based on the Monthly Report of Federal Civilian Employment (Standard Form 113A), which is submitted by all departments and agencies of the Federal Government except the Central Intelligence Agency, the National Security Agency and the Defense Intelligence Agency. OPM does not collect personnel data from the District of Columbia Government. Within this report, employment data are reported under the following categories:

WORK SCHEDULES

Full-time employees - those employees who are regularly scheduled to work the number of hours and days required by the administrative work-week for their employment group or class. (Most full-time employees have an administrative work-week of 5 days of 8 hours each.)

Part-time employees - those employees who are regularly employed on a pre-scheduled tour of duty which is less than the specified hours or days of work for full-time employees in the same group or class.

Intermittent employees - those employees who are employed on an irregular or occasional basis, with hours or days of work not on a prearranged schedule, and with compensation only for the time actually employed or for services actually rendered. As of January 1979, an intermittent employee who separated prior to the as-of date of the report is not counted.

POSITIONS

Permanent position - one which has been established without time limit, or for a period of a year or more, or which, in any event, has been occupied for a year or more (regardless of the intent when it was established).

Temporary position - one which has been established for a limited period of less than a year and which has not been occupied for more than a year.

RELATED TO CEILING - includes all employees covered by the President's employment ceiling as of the report date. Disadvantaged youths under the Stay-In-School Campaign (Schedule A, excepted authority 213.3102(w)), the Summer Aid Program (Schedule A, excepted authority 213.3102(v)), and the Federal Junior Fellowship Program (Schedule B, excepted authority 213.3202(f)), and employees in developmental jobs in the Worker Trainee Opportunity Program are excluded from personnel ceilings.

FULL-TIME EQUIVALENT EMPLOYMENT

Beginning in Fiscal Year 1982 the full-time equivalent (FTE) resource management system replaced the Executive Branch numerical end-of-year personnel ceilings which had been used to control the size of the Federal workforce for many years. Under the FTE system, workforce estimates assigned to agencies are based on the number of work years required to achieve agency missions and objectives. (One work year is equivalent to 2,080 hours of work which could mean, for example, one employee on a full-time schedule of 40 hours for 52 weeks, or two part-time employees for 20 hours per week each for the same period.) The work year estimate assigned is based on the maximum cumulative number of hours that can be worked by all employees covered by ceiling controls, including full-time, part-time and intermittent employees. Each hour worked in the agency during the course of the year (with the exception of overtime and certain other exempt work) is accrued under this ceiling. An agency's full-time equivalency for the current period is the sum of the straight time hours worked during the two biweekly report periods by ceiling-related employees divided by 160 -- this is the number of hours available to a full-time employee during the four-week reporting period.

COMPETITIVE SERVICE

The competitive service consists of all civil service positions in the Executive Branch except: (a) positions that are specifically excepted from the competitive service by or under statute; (b) positions to which appointments are made by nomination for confirmation by the Senate, unless the Senate otherwise directs, and (c) positions in the Senior Executive Service. The competitive service also includes civil service positions outside the Executive Branch that are specifically included in the competitive service by statute.

EXCEPTED SERVICE AND SENIOR EXECUTIVE SERVICE

Title IV of the Civil Service Reform Act of 1978 created the Senior Executive Service (SES). Personnel in the Executive Branch in managerial positions classifiable above GS-15 of the General Schedule and not designated above level IV of the Executive Schedule, or their equivalents, are in the SES. Exceptions include positions in government corporations, intelligence agencies, the FBI, and administrative law judges. The Foreign Service Act of 1980 created a Senior Foreign Service, effective February 15, 1981, which parallels the Senior Executive Service in most respects. Federal employees who are not in the competitive service or SES are in the excepted service. Examples of excepted positions include the entire U.S. Postal Service, Vietnam Era Veterans servicng under Veterans Readjustment Appointments, positions of which it is not practical to hold competitive examinations, such as teachers in dependents' schools overseas and attorneys, positions of a policy-determining and confidential nature, and most positions, in the Legislative and Judicial Branches. Foreign nationals holding jobs overseas are excepted by Executive Order.

Several tables in this publication report the number of Federal civilian employees in the competitive service and in the excepted service. Senior Executive Service employment is included in the excepted service in the Employment and Trends since both excepted service and SES data are reported together on the 113A monthly report.

APPOINTMENTS

Permanent Appointments - include 1) employees in the competitive service who hold career appointments and who either have completed probation or are not required to serve probation; 2) employees in the competitive service who hold career-conditional appointments, or who hold career appointments and are serving probation; 3) employees in the excepted service whose appointments carry no restrictions such as conditional, indefinite, specific time limitations, or trial periods; 4) employees in the excepted service who are serving trial periods or whose tenure is equivalent to career-conditional tenure in the competitive service; 5) employees in the Senior Executive Service (SES) who are not serving under "limited term and limited emergency" appointments.

Temporary and Indefinite Appointments - include all other employees who do not fall within any of the classifications described under Permanent Appointments.

CITIZENSHIP

Citizens - direct hire employees who owe allegiance to the United States by birth or naturalization regardless of their place of permanent residence or duty station.

Non-Citizens - Territories - direct hire employees who are citizens of another country and whose duty station is in the Territories of the United States (American Samoa, Baker Island, Guam, Howland Island, Jarvis Island, Johnston Atoll, Kingman Reef, Midway Island, Navassa Islands, Northern Mariana Islands, Palmyra Atoll, Puerto Rico, Trust Territories, Virgin Islands, Wake Island).

Non-Citizens - Foreign Country - (commonly referred to as "foreign nationals") direct hire employees who are citizens of another country and whose duty station is not the United States or its Territories.

Note: Federal civilian employees (citizens and non-citizens) are direct hire employees, i.e., they are under agreement or contract with the U.S. Government. Indirect hires (persons who, under agreement or contract with foreign governments, provide personal services to the U.S. Government) are not Federal civilian employees, and are not included in any employment figures in the Employment and Trends.

PAYROLL

Payroll is the sum of all wages, salaries and lump sum payments earned by Federal Civilian employees. Wages and salari include gross base pay, overtime, night differential, cost of living allowances and holiday pay. Lump sum payments are monies paid for annual leave to employees who have separated from the Federal Government. Note that the payroll data is collected and presented in thousands of dollars.

ACCESSIONS AND SEPARATIONS

Accessions include appointments from civil service registers which are career or career-conditional appointments, excepted appointments, appointments to the Senior Executive Service, temporary appointments from registers, temporary appointments pending the establishment of registers, reappointments, reinstatements, restorations and returns to duty, and tranfers. Separations include quits, discharges, terminations, reductions in force, removals, transfers, extended leave without pay, suspensions, furloughs, deaths, retirements, and displacements. Turnover data are reported in this publication for the following categories.

Transfers - employees who, without a break in service of one full work day, change from a position in one agency to a position in another agency, including mass transfers of employees between agencies as a result of transfer of functions.

New Hires - new appointments of individuals who currently are not Federal civilian employees to positions in the competitive service, excepted service, and Senior Executive Service, including reinstatements based on prior service.

Restorations, Returns to Duty - includes employees who exercise reemployment rights following military service and those returning to duty following a reduction in force, from suspension or leave without pay that was scheduled to exceed 30 calendar days, from seasonal furlough, or pending action on reopening appeal.

Quits - voluntary resignations by employees or separations by agency if employee declines new assignment (decision not t accept a new job); abandons position (left the job); joins military; or fails to return from military furlough.

As of January 1979 agencies report employment data either as of (1) the last day of the month, or (2) the last day of th pay period closest to the end of the month, except at the end of the fiscal year when it must be as of the last day of t month to meet Office of Management and Budget (OMB) reporting requirements. Payroll and Turnover data is reported as of the beginning and thru the end of the report period.

SECTION I

FEDERAL CIVILIAN WORKFORCE STATISTICS

This section contains recent data dated "as of" the date printed on the publication cover. Selected tables also contain data for the previous month. The Employment and Trends (formerly titled the Monthly Release) is published on a bi-monthly basis; however, data for the non-published months and for non-published tables will be furnished upon request. Requestors should identify those tables needed by table number and send requests in writing to: Workforce Analysis and Statistics Division, (Room 5431), Office of Personnel Management, 1900 E Street, N.W., Washington, D. C. 20415.

The personnel summaries in Tables 1 and 17 present highlights on an overview of the information in Tables 2-16 and 18-31. Table 2 compares the current and previous month's Federal civilian employment by branch, agency and area. Tables 3-6 and 16 include 13-month trends for employment, payrolls, Executive Branch employment by work schedule, and turnover.

It should be noted that the net difference in turnovers (accessions and separations) will not necessarily balance with net monthly changes in employment due to lags in the reporting of transfers and variations in agency reporting periods. A separation personnel action is generally not prepared for an employee who transfers to another agency until an accession notice is received by the losing agency.

Where figures are expressed in thousands, each is rounded independently and not forced to add to rounded totals. All figures are subject to revision. Several tables present employment data for the Washington, D. C. Metropolitan Statistical Area (MSA). The Washington, D. C. MSA includes the District of Columbia; Arlington, Fairfax, Loudoun, Prince William, and Stafford Counties; the Cities of Alexandria, Fairfax, Falls Church, Manassas, and Manassas Park in Virginia; and Calvert, Charles, Frederick, Montgomery, and Prince Georges Counties in Maryland.

Special Note to Readers Regarding Executive Branch Employment Controls

Note that unless otherwise indicated, the employment data contained herein represents on board "head count" strength reporting, and includes the U.S. Postal Service, the civilian employees in the Department of Defense, and other employees exempt from Administration ceiling controls in the Youth Programs and Worker Trainee Opportunities Program. In some issues of the Employment and Trends, a contrasting measure of employment, i.e., full-time equivalent (FTE) work years is used to reflect non-postal, non-defense ceiling employment. (See the FULL-TIME EQUIVALENT EMPLOYMENT description on page 5.) Therefore, caution should be exercised when determining change in employment, e.g., "head count" vs. "FTE" and "Total" vs. "related-to-ceiling" employment. The reader should also be aware that the President has no control over employment levels in the Legislative and Judicial branches. The postal and defense workforces are controlled through the Congressional appropriations process.
